Top Individual skills / Benefits of this program

- 14 out of 19 agree that integrated project planning and tracking through MS Project was most useful

- Most of them agreed that the Structured Approach to Project Management helped to connect the dots and get a complete picture on Project Management

- Other key learning topics/themes :
  - Better Estimation using multiple methods
  - Resource management, optimization
  - Systematic Risk analysis and mitigation
  - Stakeholders analysis and effective engagements through RACI
  - Improved communication planning
  - Project Charter helps to make a objective beginning to any project bringing customer, Sponsor, Project Manager and team to same page
Key benefits to organization

- The intrinsic worth and meaning of "Project Management Plan/Handbook" is understood and will be better used better henceforth

- Estimation accuracy will be better in future and this will reduce effort and cost over-run

- Going forward MS Project scheduling with resources and cost will give an integrated picture of the project and hence changes will be managed better

- Overall Project Management discipline and professionalism will improve

- Managing changes will be better due to improved impact analysis

One on one feedback
(Rating in the scale of 1-10)
